

**Ferenc Jordán** is a Hungarian biologist (born 11 June 1973, Budapest), with MSc in biology (1996) and PhD in genetics (1999, both from Eötvös University, Budapest). He was Branco Weiss Fellow of Society in Science foundation (Zürich, Switzerland, 2003-2008) and Principal Investigator at the Microsoft Research – COSBI (Trento, Italy, 2008-2016). Presently he is Head of Department and group leader at the MTA Centre for Ecological Research (Budapest, Hungary, 2014-) and Fellow at Wissenschaftskolleg zu Berlin (Berlin, Germany, 2016-2017). Dr Jordán is editor of several journals (e.g. Ecology Letters), the Editor-in-Chief of the journal Community Ecology and serves as reviewer for several organizations (e.g. European Research Council). His main interest is in food web modelling (network analysis and simulations) but he also studies other kinds of biological networks (e.g. landscape graphs, animal social networks, molecular networks).
