

## Adrianna Ianora

Chair of the Stazione Zoologica Anton Dohrn (SZN). Researcher at the SZN from 1983-2020. Former Vice-President and Member of the Administrative Council, and Head of the Integrative Marine Ecology and Marine Biotechnology Departments. Author of more than 200 scientific publications, PI and participation in numerous national/international projects, with more than 40 plenary and invited lectures at national/international meetings and events. Google Scholar h-index = 59 (11,311 citations). Former Member of the Steering Committee of European Networks of Excellence (MARBEF, EUROMARINE, MARS), and ERA-NET MARINE BIOTECHNOLOGY. Former Member of the technical-scientific committee of the National Technological Cluster Blue Italian Growth (BIG) and recently elected Member of the Board of the International Marine Biotechnology Association. Currently Editorial Board Member of Marine Ecology

Progress Series, PLOS ONE, Frontiers in Marine Biotechnology. Evaluator nominated by the European Commission for various FP7 and H2020 proposals, ERC LS8 panel Consolidator grants, Marie Skłodowska-Curie grants. Co-founder of the SZN-CNR spin-off company BioSEArch for the development of new pharmaceuticals, nutraceuticals and cosmeceuticals from marine microalgae, and currently Chief Biology Officer and Member of the Administrative Council. Currently my research uses ecological insights on plant-animal interactions in the plankton to increase rates of discovery of possible medicines and other beneficial health products from marine microalgae.
