Current Position: PhD student

Director of Studies: Laura Núñez-Pons

Internal Supervisor(s): Ulisse Cardini

External Supervisor: Jasper de Goeij

Program: Open University, 2019 cycle

Affiliation:

Section IME, Stazione Zoologica Anton Dohrn, Napoli (Italy)

Education/Training/Experience

Institute and Location	Degree / Function	Year	Field of Study
Department of Biochemistry, Friedrich-Schiller University Jena, Germany	Master of Science	2016-2019	Biochemistry
Department of Nutritional Sciences, Friedrich-Schiller University Jena, Germany	Bachelor of Science	2013-2016	Nutritional Sciences

Appointments and awards

2017 – Deutschlandstipendium – German Scholarship of Excellence

Research interests:

Jana Efremova is a PhD student researching the impact of ocean acidification, a mainly anthropogenic driven environmental stressors, on marine ecosystem stabilities at the Stazione Zoologica Anton Dohrn. In particular, she analyzes the microbial and chemical ecology of marine sponges and their impact on nutritional cycles. Her research interests include ecology, metabolism, biochemistry and nutrition. Her academic specialisation is focused on nutritional sciences and biochemistry, however the current PhD position allows her an interdisciplinary integration of her knowledge and a contribution to Climate Change research.
